Fig. 1

According to EN 14420-5 with external thread,
suitable for 25 bar operating pressure (PN 25),
polypropylene 10 bar (PN 10)

Apart from that, we offer the PTFE-lined variant,
see page 74.

External thread on the one side, hose fitting
with safety collar on the other

DN: Internal hose diameter in mm

Thread: G = DIN ISO 228-1, R = ISO 7-1,
NPT = National Pipe Thread
according to ASME B1.20.1

Seal form:

fld. = flat-sealing

Gew. = sealing in the thread

Materials:

For the abbreviation, see Materials register

Fig. 1

Fig. 2

Fig. 3

According to EN 14420-5 with union nut
female hose tail with safety clamps suitable
for 25 bar operating pressure (PN 25)

Apart from that, we offer the PTFE-lined variant,
see page 74.

Swivel nut on the one side, hose fitting with
safety collar on the other

DN: Internal hose diameter in mm

Thread: G = ISO 228-1, R = ISO 7-1,
NPT = National Pipe Thread
according to ASME B1.20.1

Seal form: fld. = flat-sealing
Gew. = sealing in the thread

Other materials upon request
